

Infosafe No™	1CH50	Issue Date : June 2019	RE-ISSUED by CHEMSUPP
--------------	-------	------------------------	-----------------------

Product Name : **PHENOL RED**

Classified as hazardous

1. Identification

GHS Product Identifier	PHENOL RED	
Company Name	CHEM-SUPPLY PTY LTD (ABN 19 008 264 211)	
Address	38 - 50 Bedford Street GILLMAN SA 5013 Australia	
Telephone/Fax Number	Tel: (08) 8440-2000 Fax: (08) 8440-2001	
Emergency phone number	CHEMCALL 1800 127 406 (Australia) / +64-4-917-9888 (International)	
Recommended use of the chemical and restrictions on use	pH indicator: pH 0.0 (pink) to pH 2.0 (yellow), pH 6.8 (yellow) to pH 8.4 (red), analytical reagent, laboratory reagent and diagnostic agent for measuring kidney function (injected intramuscularly or intravenously) and intestinal absorption of drugs (taken orally), laboratory reagent.	
Other Names	Name	Product Code
	PHENOL RED SODIUM SALT AR	PA356
	PHENOL RED LR	PL079
	Phenolsulfonephthalein, Phenol red, free acid, Phenolsulfonphthalein, 4,4- (3H-2,1-benzoxathiol-3-ylidene)bis-phenol,S,S-dioxide	
	PHENOL RED AR	PA079

Other Information

Chem-Supply Pty Ltd does not warrant that this product is suitable for any use or purpose. The user must ascertain the suitability of the product before use or application intended purpose. Preliminary testing of the product before use or application is recommended. Any reliance or purported reliance upon Chem-Supply Pty Ltd with respect to any skill or judgement or advice in relation to the suitability of this product of any purpose is disclaimed. Except to the extent prohibited at law, any condition implied by any statute as to the merchantable quality of this product or fitness for any purpose is hereby excluded. This product is not sold by description. Where the provisions of Part V, Division 2 of the Trade Practices Act apply, the liability of Chem-Supply Pty Ltd is limited to the replacement of supply of equivalent goods or payment of the cost of replacing the goods or acquiring equivalent goods.

2. Hazard Identification

GHS classification of the substance/mixture	Eye Damage/Irritation: Category 2A Skin Corrosion/Irritation: Category 2 Specific target organ toxicity - Single Exposure Category 3
Signal Word (s)	WARNING
Hazard Statement (s)	H315 Causes skin irritation. H319 Causes serious eye irritation. H335 May cause respiratory irritation.
Pictogram (s)	Exclamation mark

Precautionary statement – Prevention	P261 Avoid breathing dust/fume/gas/mist/vapours/spray. P264 Wash thoroughly after handling. P271 Use only outdoors or in a well-ventilated area. P280 Wear protective gloves/protective clothing/eye protection/face protection.
Precautionary statement – Response	P302+P352 IF ON SKIN: Wash with plenty of soap and water. P332+P313 If skin irritation occurs: Get medical advice/attention. P312 Call a POISON CENTER or doctor/physician if you feel unwell. P304+P340 IF INHALED: Remove victim to fresh air and keep at rest in a position comfortable for breathing. P312 Call a POISON CENTER or doctor/physician if you feel unwell. P305+P351+P338 IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. P337+P313 If eye irritation persists: Get medical advice/attention.

Infosafe No™	1CH50	Issue Date : June 2019	RE-ISSUED by CHEMSUPP
--------------	-------	------------------------	-----------------------

Product Name : **PHENOL RED**

Classified as hazardous

Precautionary statement – Storage	P362 Take off contaminated clothing and wash before reuse. P403+P233 Store in a well-ventilated place. Keep container tightly closed.
Precautionary statement – Disposal	P405 Store locked up. P501 Dispose of contents/container to an approved waste disposal plant.

3. Composition/information on ingredients

Chemical	Solid				
Characterization					
Ingredients	<u>Name</u>	<u>CAS</u>	<u>Proportion</u>	<u>Hazard Symbol</u>	<u>Risk Phrase</u>
	Phenol Red, Sodium Salt	34487-61-1	100 %		
	Phenol red	143-74-8	100 %		
Other Information	Available as the pure compound (acid) and as the water-soluble monosodium salt [34487-61-1]. Much of the information in this record also applies to the sodium salt. Commonly used as the sodium salt or as a solution in dilute sodium bicarbonate or sodium hydroxide.				

4. First-aid measures

Inhalation	Remove victim to fresh air. Seek medical advice if effects persist.
Ingestion	Rinse mouth thoroughly with water immediately, repeat until all traces of product have been removed. DO NOT INDUCE VOMITING. Seek medical advice if effects persist.
Skin	Wash affected area thoroughly with soap and water. Remove contaminated clothing and wash before reuse or discard. If symptoms develop seek medical attention.
Eye contact	Immediately irrigate with copious quantity of water for at least 15 minutes. Eyelids to be held open. Seek medical advice if effects persist.
First Aid Facilities	Maintain eyewash fountain and safety shower in work area.
Advice to Doctor	Treat symptomatically based on judgement of doctor and individual reactions of the patient.
Other Information	For advice, contact the National Poisons Information Centre (Phone Australia 13 11 26; New Zealand 0800 764 766) or a doctor.

5. Fire-fighting measures

Hazards from Combustion Products	May liberate toxic fumes in fire (oxides of carbon and sulphur).
Specific Methods	No limitations to the type of extinguishing media. Small fire: Use dry chemical, CO ₂ , water spray or foam. Large fire: Use water spray, fog or foam.
Specific hazards arising from the chemical	May burn but do not ignite readily. Containers may explode when heated. Runoff may pollute waterways. Fire may produce irritating, poisonous and/or corrosive gases.
Precautions in connection with Fire	Wear SCBA and structural firefighter's uniform.

6. Accidental release measures

Personal Precautions	Avoid inhalation, contact with skin, eyes and clothing. Avoid dust formation and avoid breathing dust.
Personal Protection	Wear protective clothing specified for normal operations (see Section 8)
Clean-up Methods - Small Spillages	Sweep up (avoid generating dust) and remove to a suitable, clearly labelled container for disposal in accordance with local regulations.
Clean-up Methods - Large Spillages	Seek expert advice on handling and disposal.

7. Handling and storage

Precautions for Safe Handling	Avoid generation or accumulation of dusts. Do not breathe dust. Do not get in eyes, on skin, on clothing. Avoid prolonged or repeated exposure.
Conditions for safe storage, including any incompatibilities	Store in a cool, dry place. Store in well ventilated area. Keep containers securely sealed and protected against physical damage. Keep away from heat and other sources of ignition.

Infosafe No™	1CH50	Issue Date : June 2019	RE-ISSUED by CHEMSUPP

Product Name : **PHENOL RED**

Classified as hazardous

8. Exposure controls/personal protection

Occupational exposure limit values	No exposure standards have been established for this material, however, the TWA National Occupational Health And Safety Commission (NOHSC) exposure standards for dust not otherwise specified is 10 mg/m ³ .
Appropriate engineering controls	In industrial situations maintain the concentrations values below the TWA. This may be achieved by process modification, use of local exhaust ventilation, capturing substances at the source, or other methods.
Respiratory Protection	Where ventilation is not adequate, respiratory protection may be required. Avoid breathing dust, vapours or mists. Respiratory protection should comply with AS 1716 - Respiratory Protective Devices and be selected in accordance with AS 1715 - Selection, Use and Maintenance of Respiratory Protective Devices. Filter capacity and respirator type depends on exposure levels. In event of emergency or planned entry into unknown concentrations a positive pressure, full-facepiece SCBA should be used. If respiratory protection is required, institute a complete respiratory protection program including selection, fit testing, training, maintenance and inspection.
Eye Protection	The use of a face shield, chemical goggles or safety glasses with side shield protection as appropriate. Must comply with Australian Standards AS 1337 and be selected and used in accordance with AS 1336.
Hand Protection	Wear gloves of impervious material conforming to AS/NZS 2161: Occupational protective gloves - Selection, use and maintenance. Final choice of appropriate glove type will vary according to individual circumstances. This can include methods of handling, and engineering controls as determined by appropriate risk assessments.
Personal Protective Equipment	Personal protective equipment should not solely be relied upon to control risk and should only be used when all other reasonably practicable control measures do not eliminate or sufficiently minimise risk. Guidance in selecting personal protective equipment can be obtained from Australian, Australian/New Zealand or other approved standards.
Footwear	Safety boots in industrial situations is advisory, foot protection should comply with AS 2210, Occupational protective footwear - Guide to selection, care and use.
Body Protection	Clean clothing or protective clothing should be worn, preferably with an apron. Clothing for protection against chemicals should comply with AS 3765 Clothing for Protection Against Hazardous Chemicals.
Hygiene Measures	Always wash hands before smoking, eating or using the toilet. Wash contaminated clothing and other protective equipment before storing or re-using.

9. Physical and chemical properties

Form	Solid
Appearance	Bright to dark red powder.
Odour	Weak odour.
Melting Point	>300 °C
Solubility in Water	0.77 g/l at 100°C
Solubility in Organic Solvents	Slightly soluble in alcohol and acetone. Almost insoluble in chloroform and ether. Soluble in alkali hydroxides and carbonates.
Partition Coefficient: n-octanol/water	logP(o/w): 3.02
Flammability	Combustible.
Molecular Weight	354.38
Other Information	Basicity: Weak base - pKa = 7.9

10. Stability and reactivity

Chemical Stability	Stable under normal use conditons. Stable in air. Stable to heat (can be autoclaved).
Conditions to Avoid	Incompatibles.
Incompatible Materials	Strong acids and bases, strong oxidising agents and strong reducing agents.
Hazardous Decomposition Products	Oxides of sulfur and carbon.
Hazardous Polymerization	Will not occur.

Infosafe No™	1CH50	Issue Date : June 2019	RE-ISSUED by CHEMSUPP
--------------	-------	------------------------	-----------------------

Product Name : **PHENOL RED**

Classified as hazardous

11. Toxicological Information

Ingestion	Phenol red is used medically as a marker for intestinal absorption of drugs. It seems to have no harmful effects when taken in small doses. Large doses may cause nausea, vomiting and diarrhea. May be a strong laxative. May cause blood pressure to fall or itching skin rash.
Inhalation	Dusts or mists may be irritating to mucous membranes and upper respiratory tract.
Skin	Dusts or mists may be irritating.
Eye	Dusts or mists may be irritating.
Chronic Effects	Allergic reactions may occasionally occur.
Mutagenicity	Mutagenic in a bacterial test (Ames Salmonella) with and without addition of a liver extract (Chung et al., 'Mutagenicity testing of some commonly used dyes', Applied and Environmental Microbiology, 1981).

12. Ecological information

Ecotoxicity	No ecological data available for this product.
Bioaccumulative Potential	Not expected log Pow:3.02.

13. Disposal considerations

Disposal Considerations	Whatever cannot be saved for recovery or recycling should be disposed of according to relevant local, state and federal government regulations.
--------------------------------	---

14. Transport information

Transport Information	Not classified as a Dangerous Good according to the Australian Code for the Transport of Dangerous Goods by Road and Rail.
------------------------------	--

15. Regulatory information

Regulatory Information	Listed in the Australian Inventory of Chemical Substances (AICS). Not listed under WHS Regulation 2011, Schedule 10 - Prohibited carcinogens, restricted carcinogens and restricted hazardous chemicals.
Poisons Schedule	Not Scheduled

16. Other Information
